

Competition Calendar 2019-2020

Principles of High Quality Competition	
1	The young person's motivation, competence and confidence are at the centre of the competition
2	The focus is on the process rather than the outcome i.e. on the learning and values development of the young person rather than the result
3	Volunteers, leaders and officials are appropriately trained and display behaviours reflective of the nature of the competition
4	The environment is safe and creates opportunities to learn and maximise social development
5	The facility and environment created at the competition reflects the motivations, competence and confidence of the young people and format of the competition

SMILES	
SAFE	Participants feel physically and emotionally safe
MAXIMUM PARTICIPATION	Participants are fully involved for the majority of the time
INCLUSIVE	All participants can take part and activities are designed to suit and develop their abilities
LEARNING	Participants develop personal, social and creative thinking alongside physical skills
ENJOYMENT	Activities recognise individuals' personal needs, interests and motivations to take part
SUCCESS	Participants feel they are making progress and gaining satisfaction

COMPETITION STRUCTURE 2019-2020

County Finals

The county finals are for schools/teams who have qualified through the School Sport Partnership competitive route or who have been selected by the School Sport Partnership to represent them at the School Games based on commitment, effort and support. County Finals might be stand-alone events at Tees Valley or Durham or might be part of the large, multi-sport Tees Valley School Games. These events are blue

Competitive Pathway Events

These events provide competitive opportunities for young people and represent the pathway to the County Final. These competitions are suitable for ALL to take part but there will be winners and opportunities for school to qualify. These events might be the culmination of cluster events to determine an overall winner as representative for the County Finals. These events are green on the calendar

Cluster Competitions

The cluster competitions are the first stage on the competitive qualifying pathway and are an opportunity in many events for schools to bring additional teams to maximise participation. Cluster competitions often offer opportunities for different sized schools to have a fair chance of getting through to the finals. These event are pale green

Development Events

These events, are less competitive in nature and often involve a mixture of skills carousel and games. The officials, usually young leaders, will be more relaxed about the rules and try to develop the participant's skills and knowledge and confidence as they experience the game format and personal challenge activities. These events are ideal for smaller school teams who might not want to compete at the higher level, B & C teams of larger schools. Some development events are called 'Plate competitions and may have awards

Festivals

These events are for fun and participation and do not have overall winners but offer ALL children the opportunity to develop physically and socially

Project Ability (Inclusive opportunities for children with SEND)

These events are offered for children across the Tees Valley and are open entry. Contact Emma turnbull eturnbull@northfieldssc.org

Meetings & Training

Half termly PE meetings and Leadership opportunities

Primary Events Autumn Term

Date	Event	Time	Venue	Year Gp/s	Event Type/Information
Tues 9 th Sept	Primary PE Meeting	4.00pm – 5.30pm	Northwood Primary School		Please book via website
